The One Hundred-Twenty ceiling is an aluminium lamp available in two sizes. It can be made in different sizes upon request. It is available in two standard colours, black and white, but it can be made in any other colour upon request. The basic version of the lamp has an AR 111 220V retrofit module from 1200lm to 1800lm. It is also possible to order the same lamp with a high-output constant current module up to 3800lm, either with or without a power supply.
