Fabric Cable Colour

The One Hundred-Twenty suspension is an aluminium lamp available in two sizes. It can be made in different sizes upon request. The standard colours are black and white, but it can be made in any other colour upon request. The colour of the textile cable can be chosen from among 20 different colours. The basic version of the lamp has an AR 111 220V retrofit module from 1200lm to 1800lm. It is also possible to order the same lamp with a high-output constant current module up to 3800lm, either with or without a power supply.
